To those who understand just how to grow it, and how to cure it, the oat crop is one that will give as good returns as almost any crop grown on the farm; but it is not best for the farmer to depend wholly on this for a fodder crop, but to let it come in to make up a variety. Corn, rye, barley and Hungarian are all good and should be con-

sidered. - Massachusetts Ploughman. -----In this country any man who plays a fiddle, trains dogs, or teaches skatCARPETS AND RUGS.

Fine Grades of Each Which Are Manufactured in America.

"An increased demand for the luxuries of life indicates the advancement of a community in art, taste and teman in the carpet and rug department porter for the Daily News. "Take carpets and rugs alone, for instance. Ten years ago the stocks of the leading jobbing houses in Chicago would not average more than two hundred or two hundred and fifty pieces each. Now they carry from five hundred to seven hundred pieces each of body each of oil of bergamot and essences of Brussels and the higher grades. The beaviest trade is in extra super-ingrain, and tapestry Brussels comes next. Are the finer grades imported? Well, I should say not. We make better carpets in America than are made anywhere else in the world, and the same may be said of rugs. Of course you can not include among the latter the beaten eggs; lastly, add the flour; bake rare India and Persian imported rugs. I have seen in a well-known house in New York small rugs six by two feet in size worth fifty and sixty dollars, while larger India rugs fifty and one hundred years old, on which whole families have worked for a year or two, and which look like the rare old drapery taken from some picture, are worth fifteen to eighteen hundred dollars. There is not much competition in rugs. The leading industries in this country are confined to the manufacture of tapestry Brussels, body Brussels, and Smyrna rugs, while there is a large manufacture and importation of velvets, moquettes, and punjaubs. A firm in Halifax, N. S., are the largest manufacturers in the world of velvets and Brussels. The Smyrna and moquette rugs are the most costly. The Smyrnas are alike on both sides and run to high colors, while most of the others are in patterns of flowers, animals, and an infinite variety of de-

> "Some time ago the favorite design in Brussels and velvet rugs was the 'Jumbo' pattern, while the figures of horses, dogs and stags were placed in The process of manufacture is difficult to explain. It would require a trip through the manufactories to become acquainted with the details. The tapestry Brussels is printed first and then woven into mats and rugs. The body Brussels patterns are formed on Jacquard looms and cards. The leaves and flowers are formed and cut by machinery on the cards, by the same process employed in making carpets. made on power looms, the same as velvet carpets. They are woven out of worsted, and the pile is cut or sheared down. In Smyrna and imitations of imported rugs, the material is woven in ures on hand looms. They are entirely alike on both sides, and are an extremely favorite rug. They vary in size from one foot square to twelve or fifteen feet, with borders. Some of the looms in which these rugs are woven are eighteen feet wide. There are several varieties of cheap and inferior rugs made by individuals, but they do not come into contact or competition with the regular trade. They are made on much the same plan as the oldpecial talent and skill to manufacture the different varieties of rugs. For instance, the body Brussels and ingrain carpets are very nearly alike in process of manufacture, but the maker of these is not capable of making tapestries, in which the pattern is stamped first.

W. K. SAGE, of St. Johns, Mich., was completely prostrated by the hardships endured during the late war. He returned home a wreck both in mind and nody. For twenty years he simply existed, half the time more dead than alive until he was restored to health by Warner's Tippecanoz. The Best. He advises all old vets to try it. Write to him at St. Johns, Mich.

## Ayer's Sarsaparilla.

From E. S. Russell, Druggist, Nashua, N. H. I have been in the drug and prescription business in Nashua over forty years, and am the oldest druggist here. I was the first to introduce your valuable medicines in this city. I believe in them. Ayer's Sarsaparilia I take pleasure in recommending to my customers, well knowing it to give satisfaction. In all my experience, as a druggist, I have yet to hear the first complaint against it.

From F. & E. Bailey & Co., Lowell, Mass. Having sold Aver's Sarsaparilla since it was first placed upon the market, we can sny, after an experience covering a quarter of a century, that we have yet to learn of a case where it has failed to give satisfaction. Its merits are fully established.

From C. Way & Co., Portland, Me. We have used Ayer's Sarsaparilla for years, and our customers are much pleased with its effects. We believe it to be one of the best medicines in the market.

Ayer's Sarsaparilla,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by Druggists. Price \$1; six bottles \$5.

ANY DRUGGIST WILL TELL YOU ITS REPUTATION.

On a special feature of Ridge's Food, in contradis-tinction to others, is its neutral action upon the bowels. For this reason, it is specially adapted to those seasons when bowel troubles are so frequent. Remember Ridge's Food is an old and fried prepara-tion, having been in use for thirty years in England and America. It is a perfectly safe and nourishing diet for all conditions.

When I say cure I do not mean merely to stop them for a time and then have them return again. I mean a radical cure. I have made the disease of FITS, EFILEPSY or FALLING SICKNESS a life-long study. I warrant my remedy to cure the worst cases. Because others have failed is no reason for not now receiving a cure. Send at once for a treatise and a Free Bottle of my infallible remedy. Give Express and Pess Office. It costs you nothing for a trial, and I will cure you.
